ERP Implementation, Upgrade and Integration

Capability to provide either full lifecycle services or ad hoc problem solving for commercial-off-the-shelf, SaaS, or cloud based ERP systems to include initial implementation, upgrade management and all related services. MEEC institutions have ERPs from almost the full range of providers (Oracle, Ellucian, Jenzabar, Workday, Kuali among others) and in a variety of lifecycle stages. It is anticipated that respondents in this category would have significant bench strength to meet long term needs of major projects or specific skill sets for meeting specialized needs related to ERP.
