Learning

Windows 10 enables a new world of learning

Better learning
outcomes

Affordable devices
and solutions

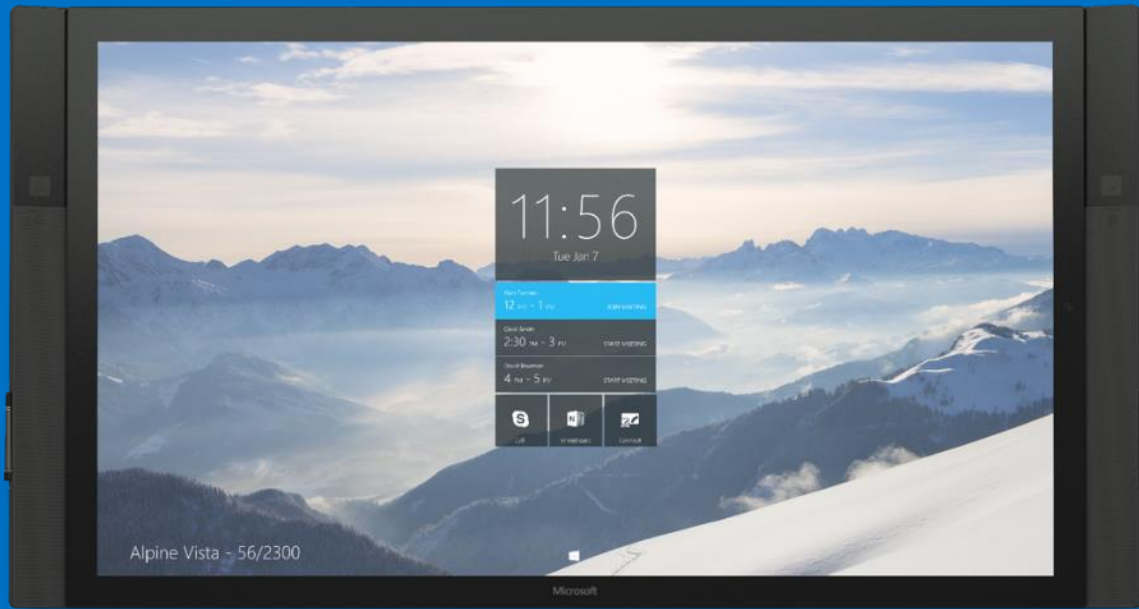

Safety and security

Simple to deploy
and manage

Building the
education platform
for 21st century
learning

Windows 10

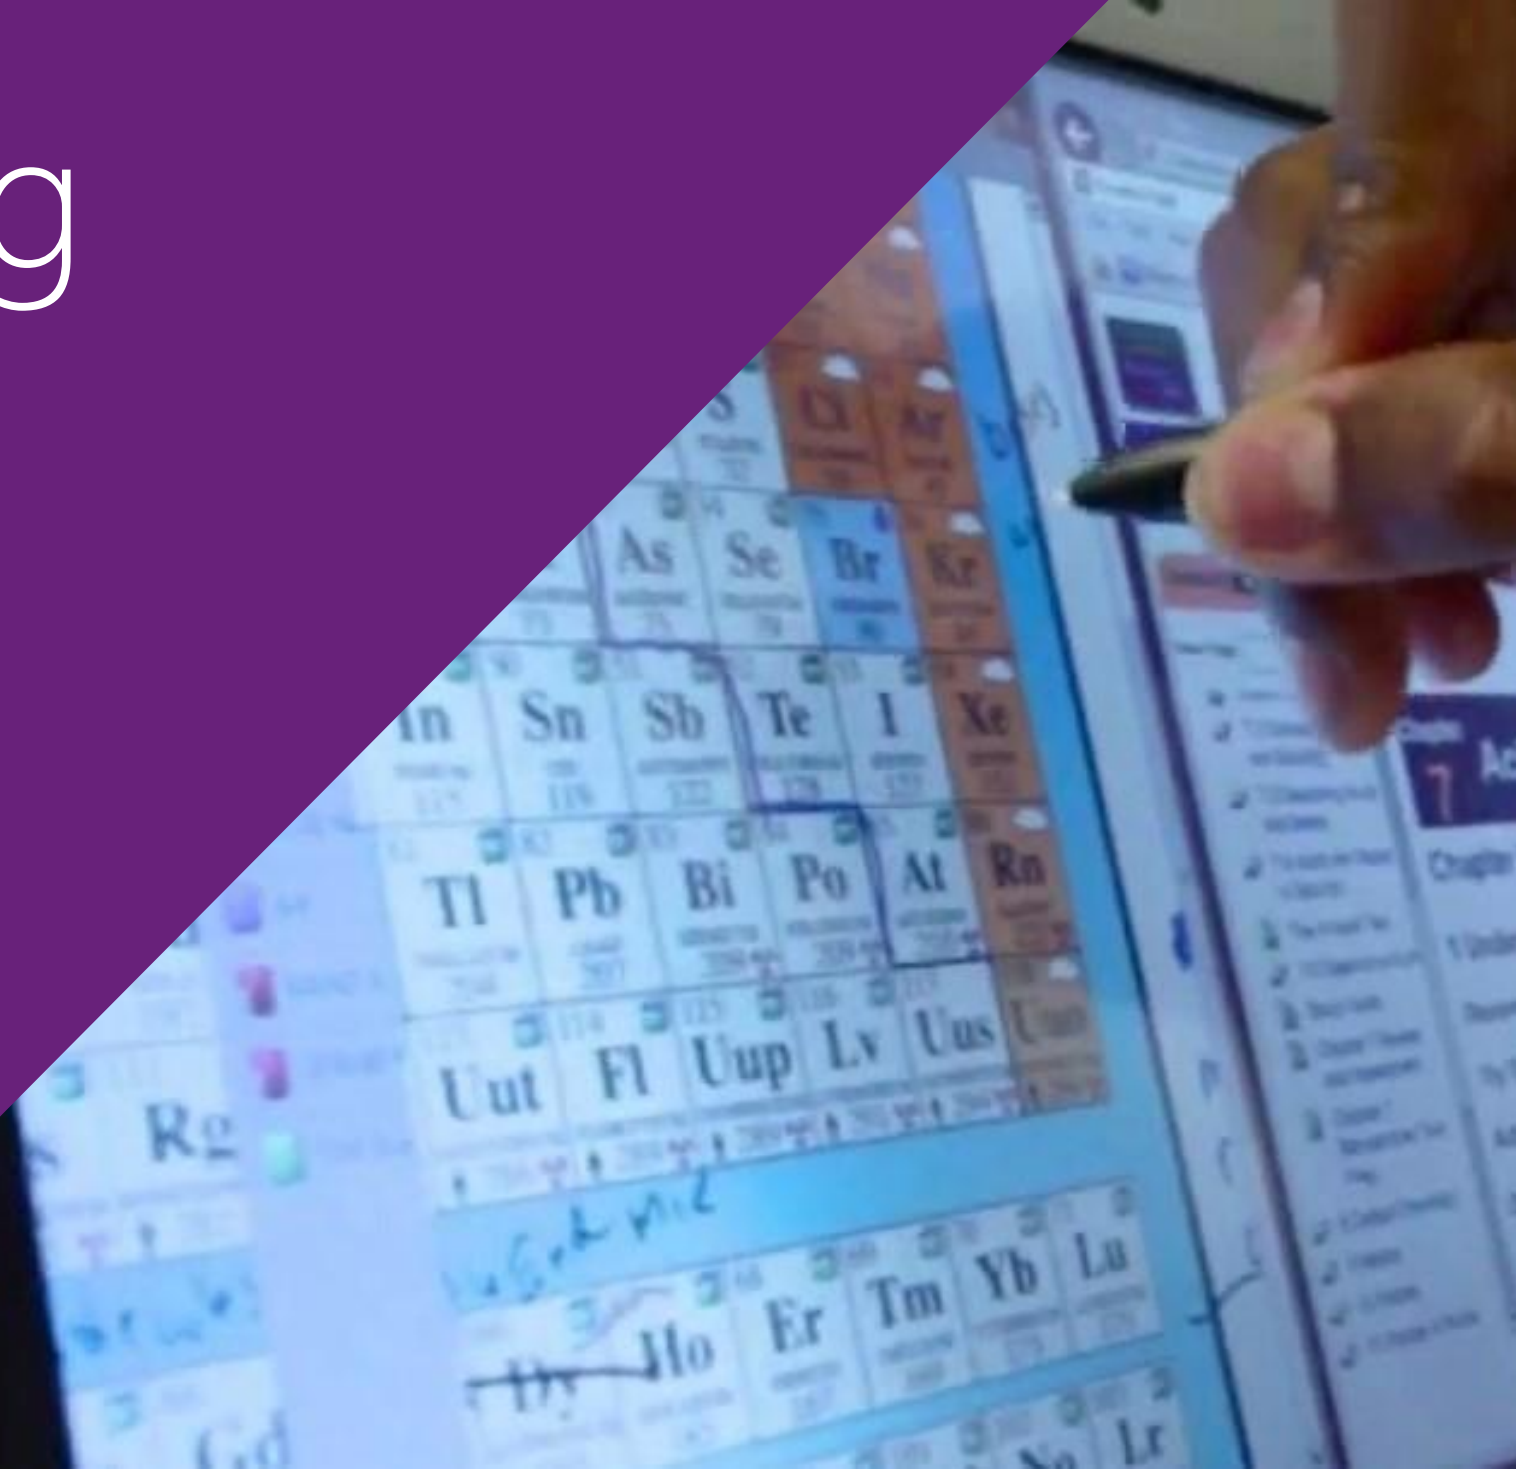

One experience

One platform

One store

Better learning outcomes

Platform you never outgrow

Easy for students and teachers

Familiar user experience, scaled across devices

Lab, cart, students, teachers, administrators: one experience, one platform, one Windows

Demo: User Experience

Built for 21st century learning

Be productive: more powerful multi-tasking
Synthesize, connect, create: inking is built for thinking

Be curious: widest range of education peripheral and app support for inquiry

Solve problems, make decisions: search, compare side-by-side, share

Be collaborative: online or offline

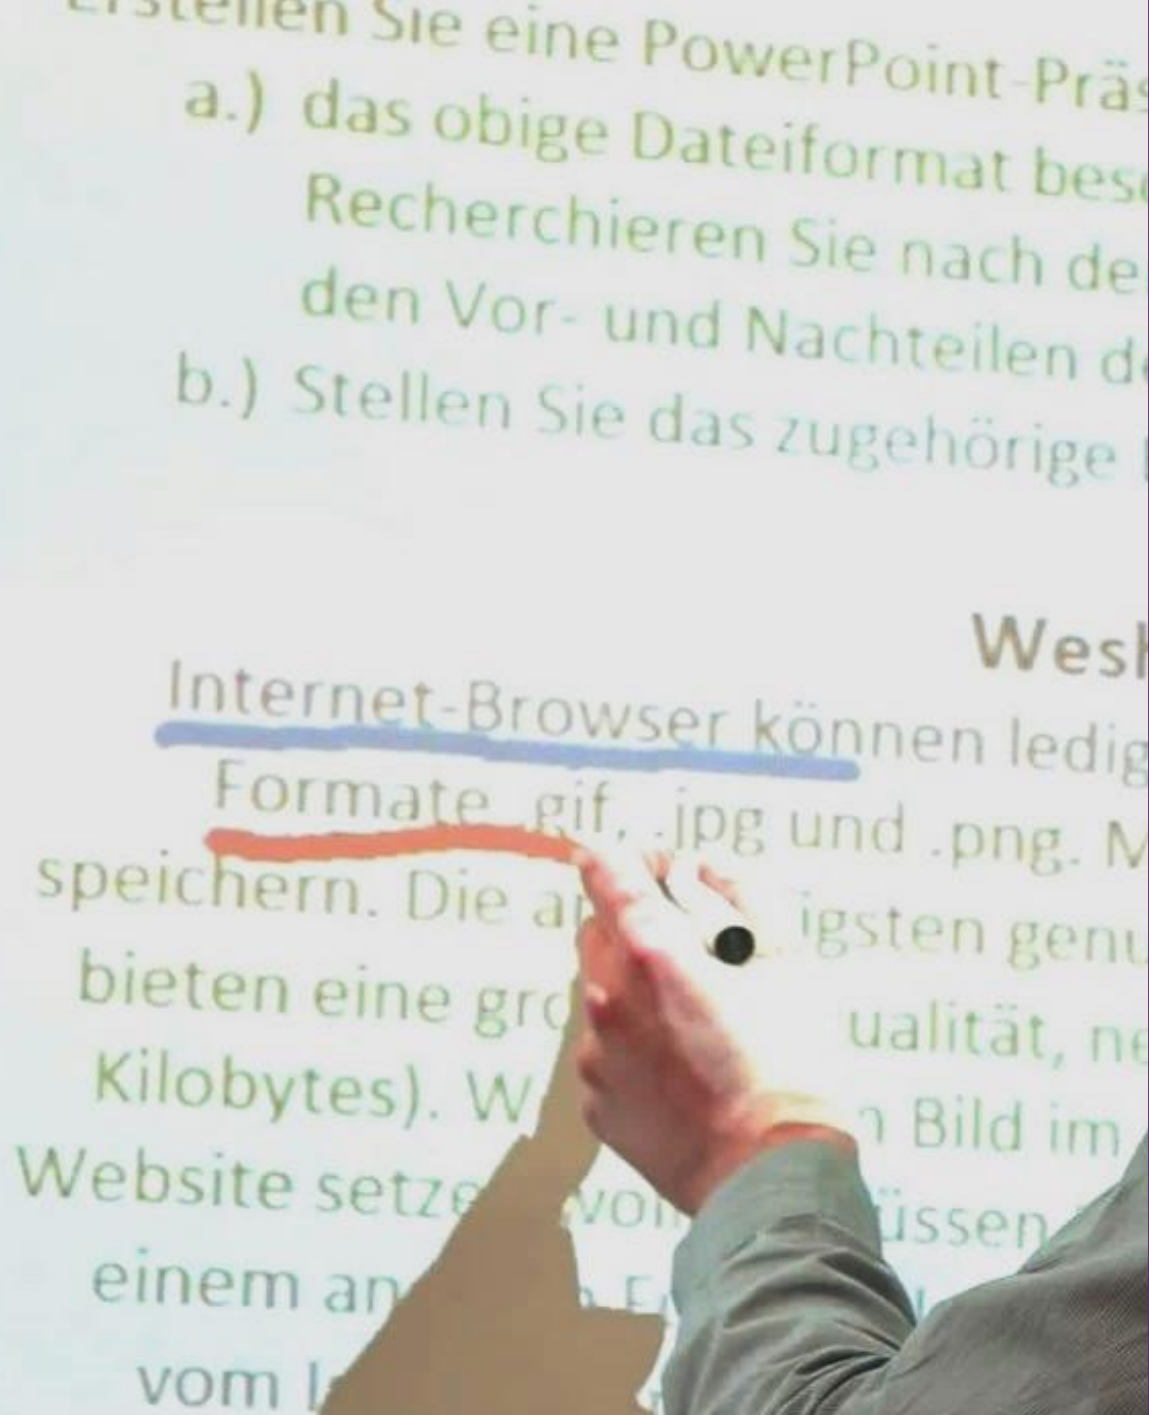

erstellen Sie eine PowerPoint-Präsentation, in der Sie beschreiben

a.) das obige Dateiformat beschreiben
Recherchieren Sie nach den Vor- und Nachteilen der

Microsoft Edge

(IT'S NO LONGER CODENAMED "Project Spartan")

Built for the modern web

Take notes while working directly on web pages, then share or copy to OneNote

Best browser for reading, optimized for your device and distraction-free

Always-up-to date; more secure by default

Demo: Microsoft Edge

Internet Explorer

More secure than ever

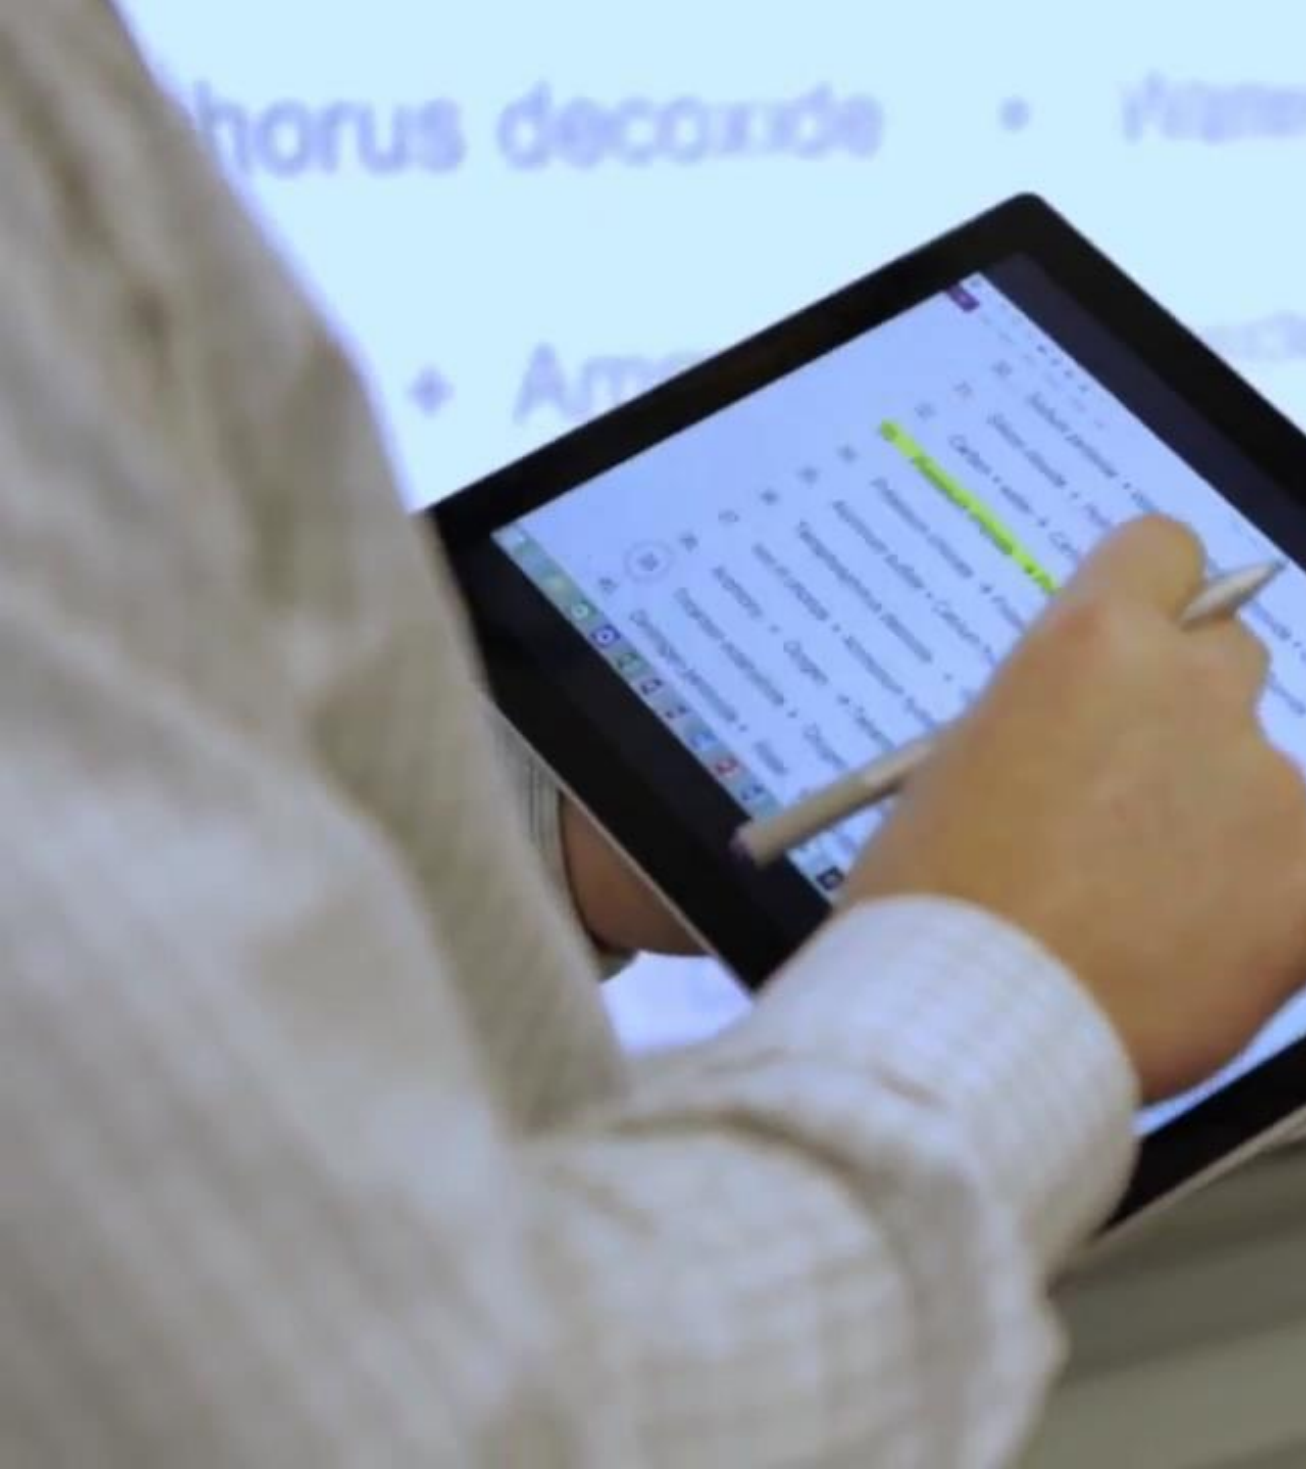

Always up-to-date for tomorrow's websites

Backward compatible with Enterprise Mode

Internet Explorer 11 is the fastest web path to Windows 10

Affordable devices and solutions

Best devices for education

For every learning style

For each budget

For your deployment

Modern devices

Makes existing devices better

New devices New innovations

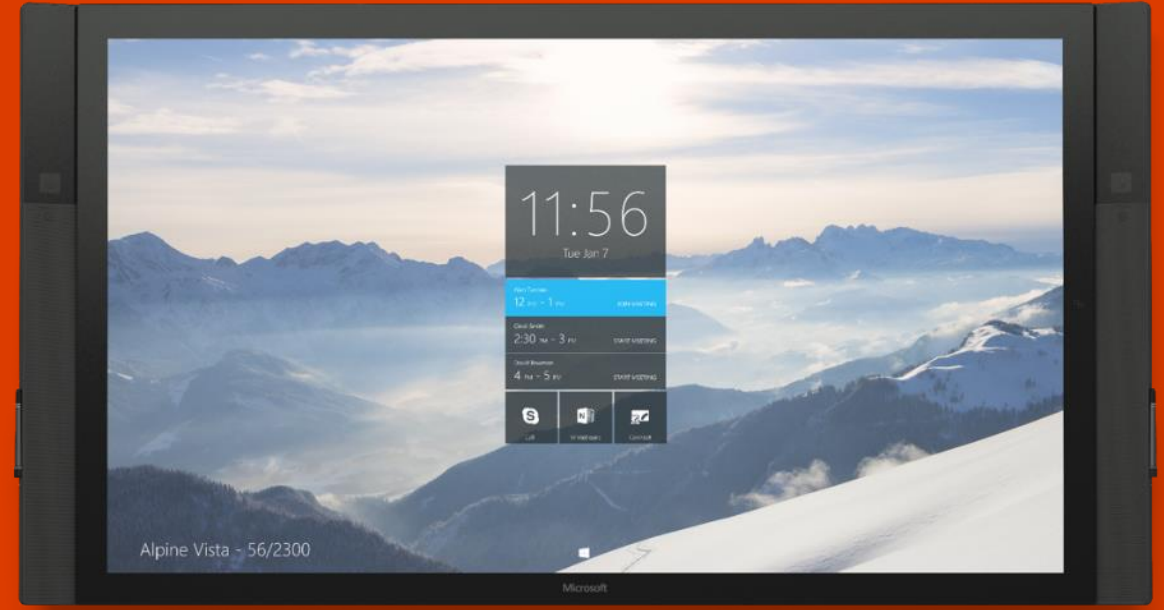

Pen

Touch laptops

2-in-1

 Windows 10

Revolutionary education devices

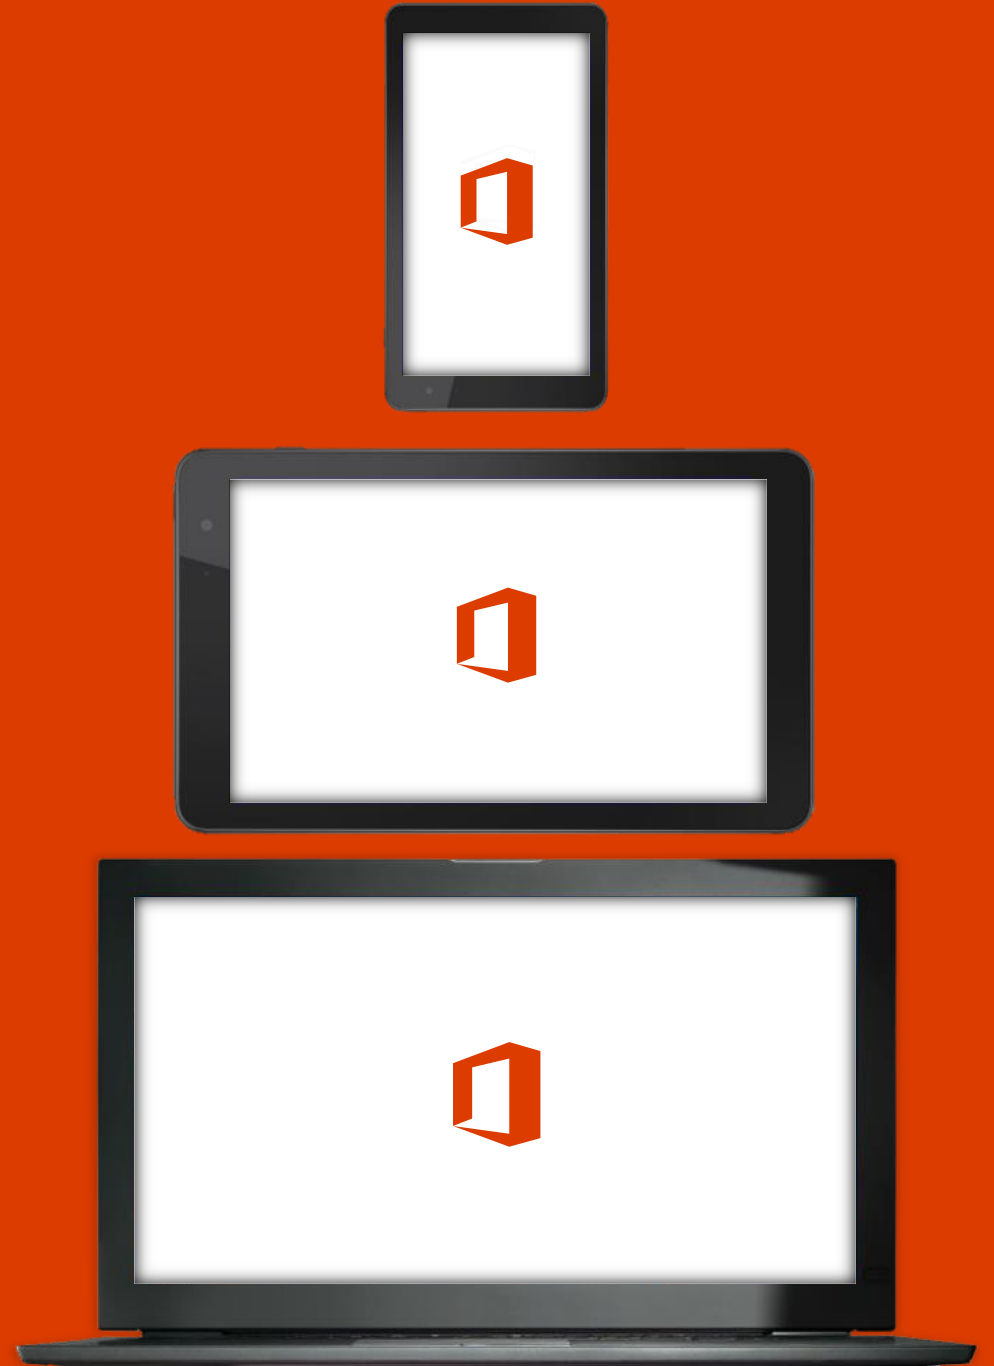

New universal Office apps for Windows 10

Familiar Office experience on Windows Phones, Tablets, and Desktops

Built for touch and mobile.

Office universal apps increase phone productivity

- Mail and Calendar apps
- Present from PowerPoint
- Edit Word documents

Windows Store: Ready for education

Access with Azure Active Directory

Volume licensing

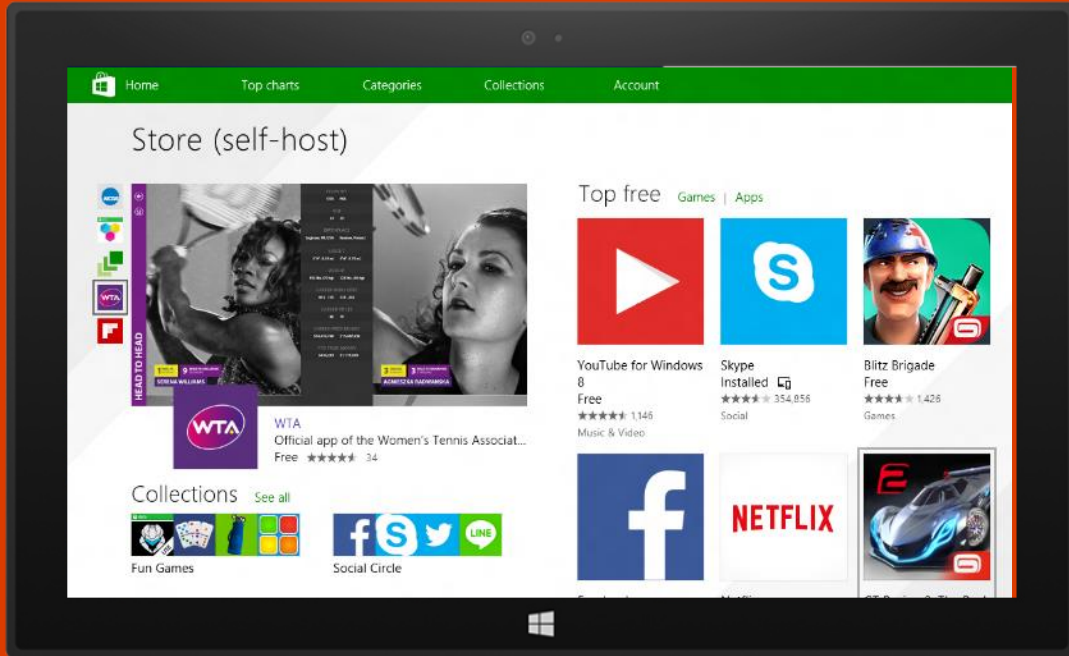

Flexible distribution

License reclaim/re-use

Curated education app store

Today

Windows Store

- Modern apps
- Sign in with MSA
- Pay with credit card, gift card, PayPal, Alipay, INICIS, mobile operators (Phone)

Custom App Store

- MDM-driven
- Sideload line-of-business modern apps
- Link to apps in the Windows Store

App deployment scenarios for any need

Flexible app deployment

- Online, offline, or included in images
- Through the store, via MDM, or using System Center
- LOB and B2B apps can be kept private

Support for any organization

- Teacher and classroom
- Small businesses and other organizations
- Large enterprises

Simplify via Convergence

- One store, one volume purchase program
- Universal apps across all device types
- Reconciled sideloading processes

Safety and security

Identity for schools

Office 365 / Azure Active Directory

Microsoft Account

Active Directory

Local Accounts

■ Ms. Hendricks

Hi Karen, hope you're feeling bet

I've copied your assignment
SkyDrive 😊

Azure AD: Office 365 identity for Windows

Use Azure AD to sign in to devices and the Windows Store, no Microsoft Account needed

Azure AD is the same identity used with your Office 365 deployment

Azure AD is a comprehensive identity and access management solution for the cloud

"Azure AD Join" connects to your existing Active Directory

A close-up, side-profile view of a person wearing glasses, looking intently at a tablet device held in their hands. The background is a solid green color with a faint, semi-transparent image of a laptop keyboard.

Microsoft "Passport"

Strong identity option that works for education institutions

Easy to deploy two-factor password alternative

Breach, theft, and phish resistant credentials

Single sign-on experience

Convenience for users in 1:1 deployments, with greater security

Windows Hello

A biometric means to authenticate with Microsoft Passport

Used to access your device, apps, web services, and business networks

Comes with inbox support for facial recognition, iris, and fingerprints

Supports existing devices with fingerprint sensors and new devices with facial and iris support
