Microsoft

Kudzai Taziva *Partners in Learning Manager, US EDU*

We believe

An excellent education is a basic right and a social imperative

Technology can accelerate insight and impact

Effective, immersive learning experiences inspire improved outcomes

Communities of committed, collaborative participants are essential to advancing education

Skills for Tomorrow's Workforce

Insights into transformative teaching practices

Problem solving and innovation

Global awareness

Knowledge construction

Skilled communication

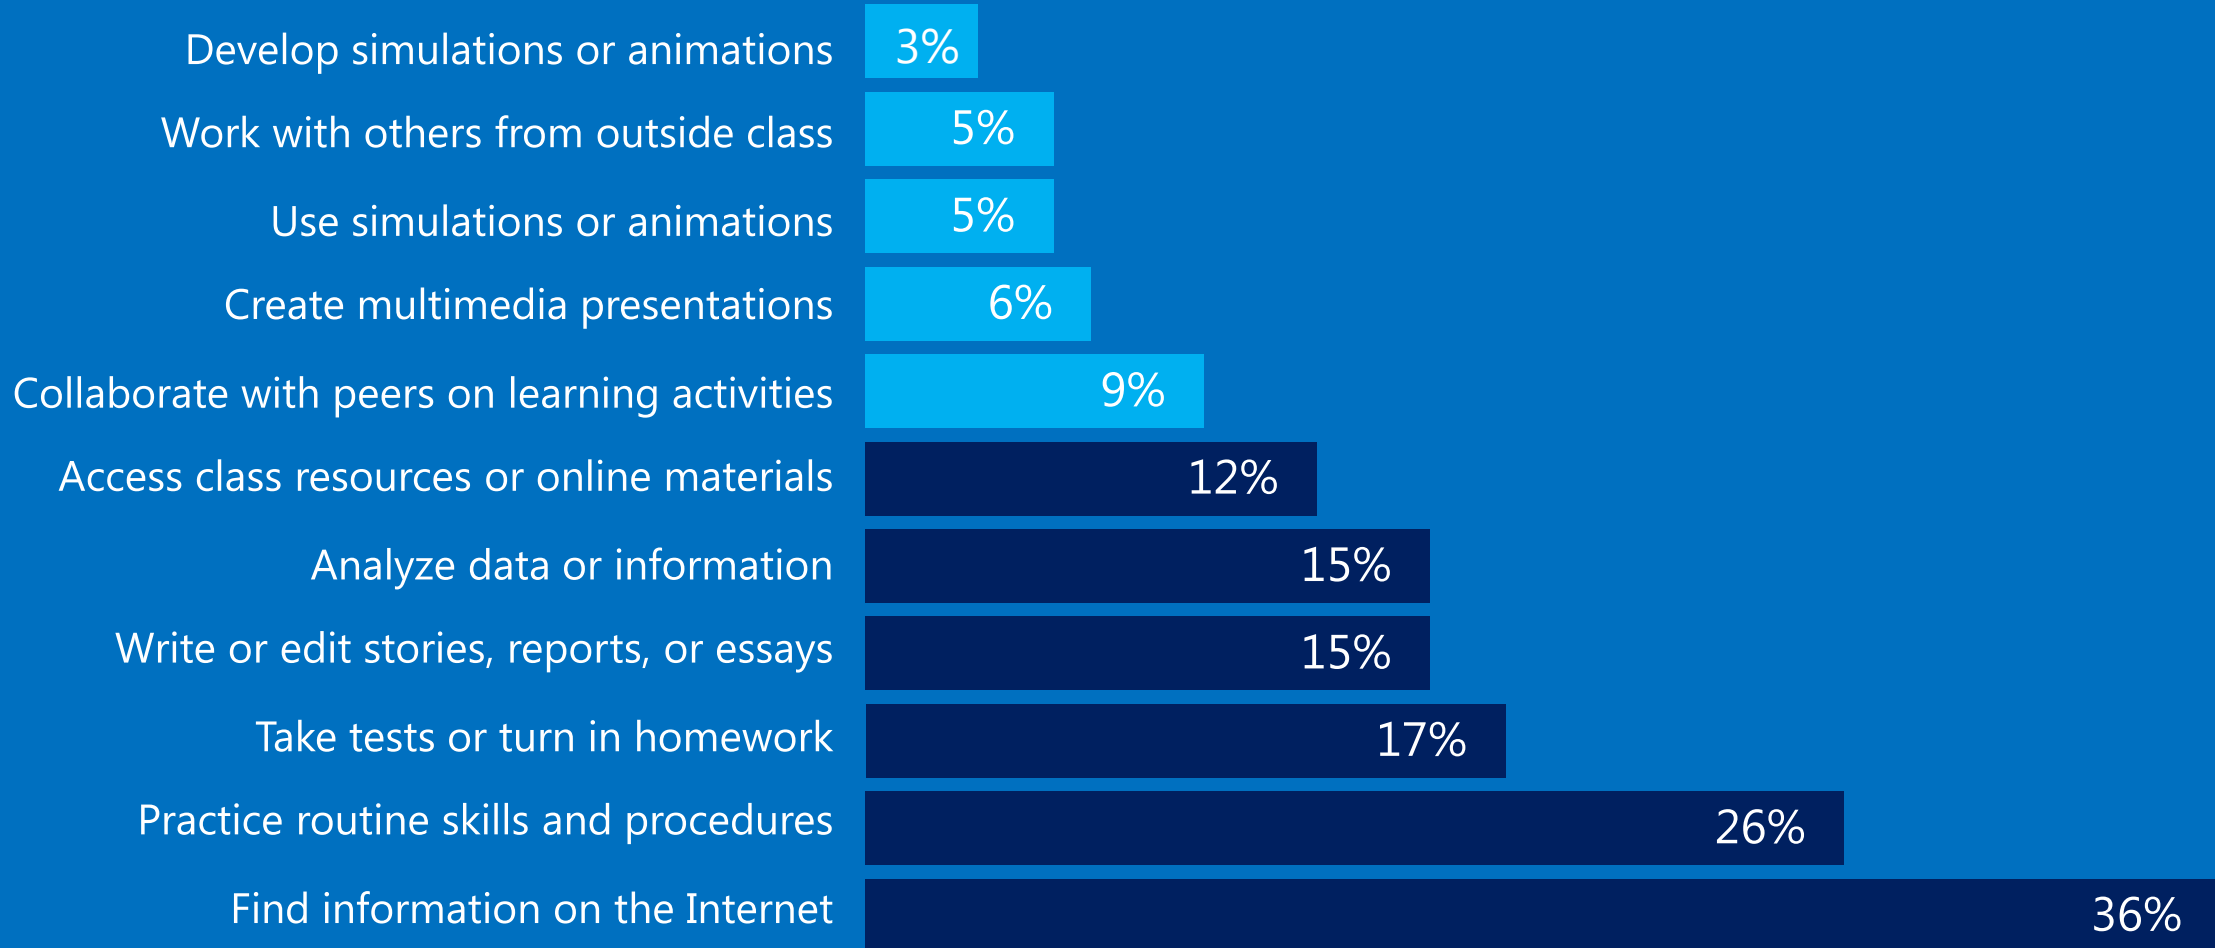

Self-regulation and assessment

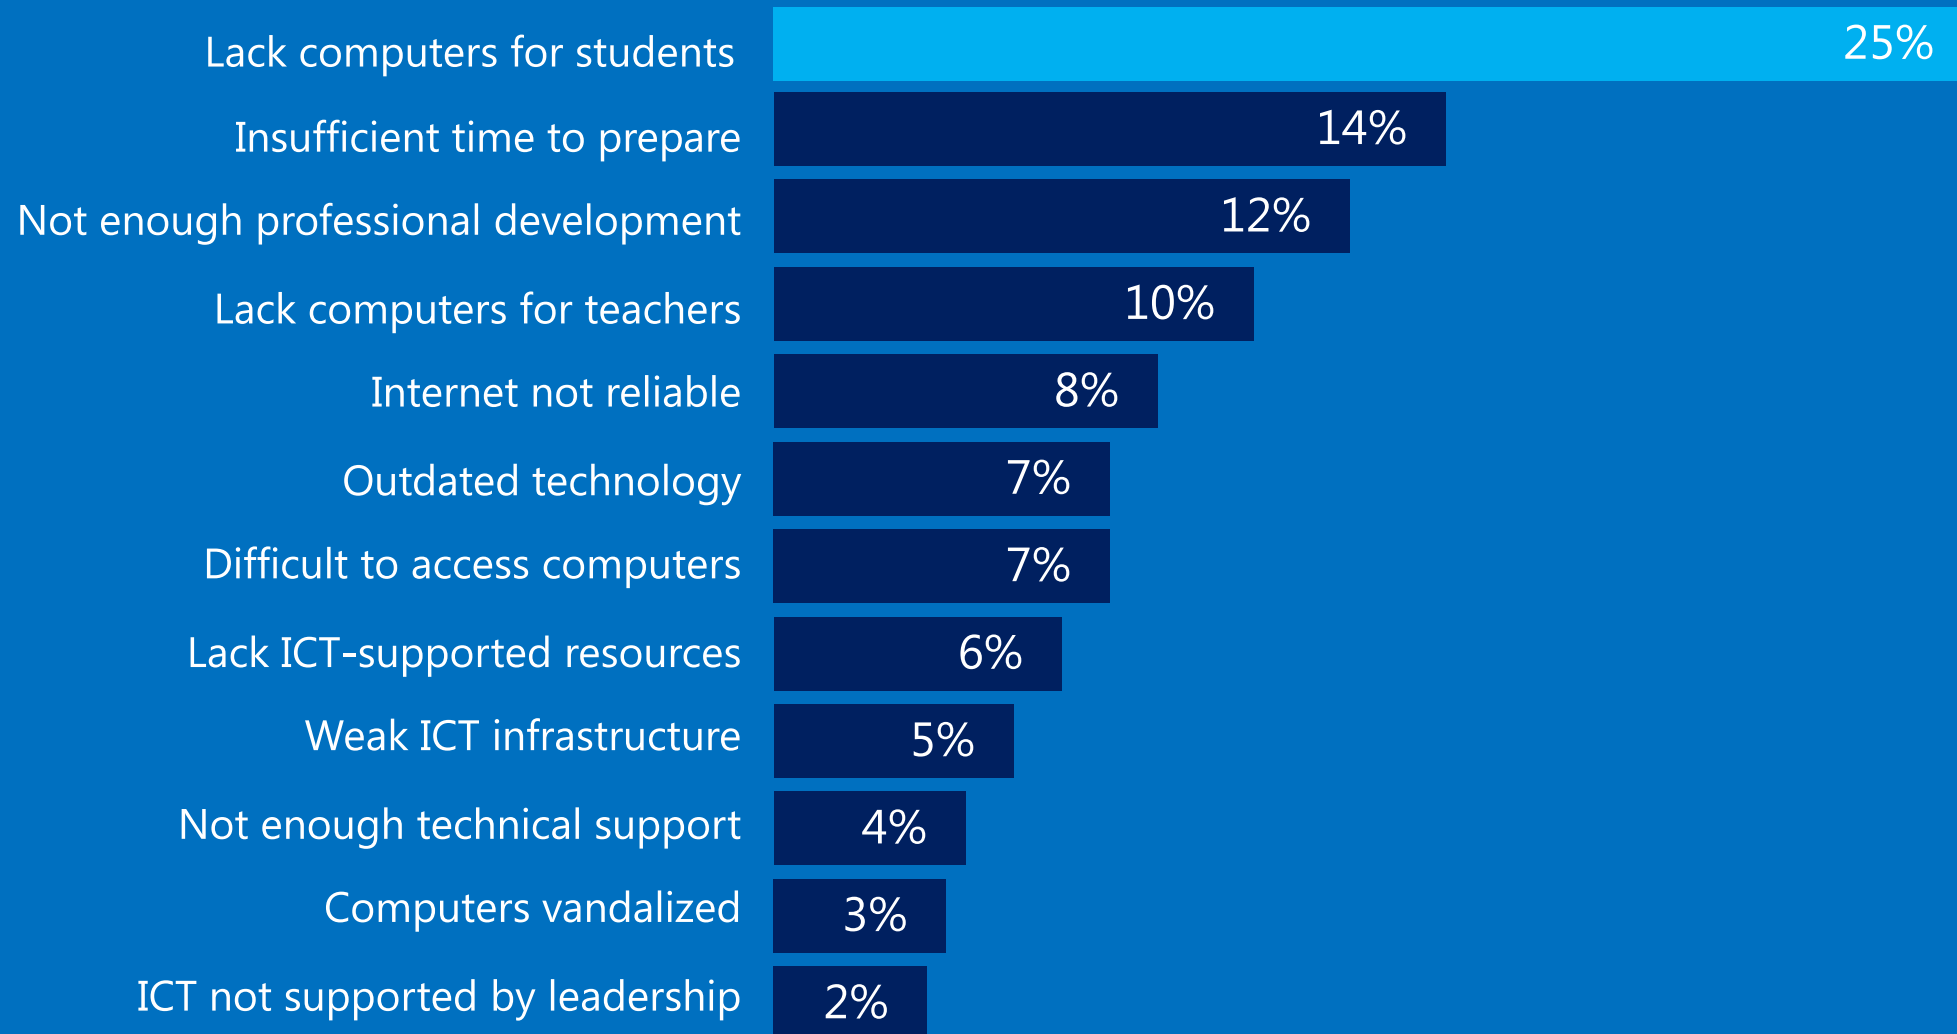

Collaboration

Uses of Information and Communications Technology Remain Limited

Why is Integration so Hard?

Percent Teachers Citing Most Significant Barrier

Introducing **Bing for Schools**

Students get better search.

Teachers get teaching support.

Schools get Surface RT tablets.

Sign up now at bing.com/schools
