IT PROFESSIONAL CONSULTING SERVICES

The MEEC IT Professional Consulting Services Agreement provides a wide range of services. The purpose was to create multiple, task-order based Master Contracts to provide information technology professional consulting services on an as needed basis. These contracts commence on July 1, 2016 and expire June 30, 2025. In Year 3 (2019) and Year 6 (2022), there is an “Expansion Window” whereby the USM/MEEC can solicit to other IT contractors to add them to the list of Master Contractors AND the current Master Contractors can propose to expand their services. Contracts were awarded through a competitive proposal process, following the USM procurement policies and procedures.
